

**Sheerweave Roller Blinds combined with
Somfy intelligent automation
- an energy efficient window innovation**

We are the experts in specifying, supplying and installing the following cutting edge products:

- Reflect Heat and Glare while maintaining your view.
- Reduce Air Conditioning Costs by controlling heat.
- Decrease the use of artificial lighting by allowing the right amount of light into a room.

- Open and close blinds as your building warms and cools.
- Lighten or darken a room at the touch of a button.
- Allow your building to 'think' using light and temperature sensors to control blinds.

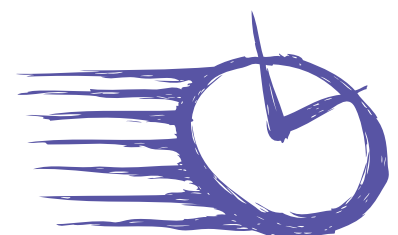

- 32 years of blind making experience.
- Leaders in blind innovation in South Africa.
- Finest quality products with a full 2-year warranty.

Do you require a simple solution to make your new or existing office or home more energy efficient? We have cost effective heat & light control solutions for your windows.

We are specialists in combining the latest blind technology into a product suitable for your application.
